

Planning for Student Driven Learning

Learning Objective

What will be true about my students afterwards, that is not true now?

Task Analysis

What knowledge and skills do my students need to complete the objective?

Knowledge	Skills

Do my students already have all the knowledge and skills listed above? If not, what can I do to make it possible for them to succeed?

[pre-lessons, scaffolds (next page), resources / tools, etc.]

DO NOT PROCEED

until you are confident your students have the knowledge & skills needed
for success!

Tools & Scaffolding

What tools do I want my students to use in achieving the objective (dictionary, personal notes, texts, scissors, etc.)?

[Ensure that they have all the tools they need and know how to use them.]

Tools

What scaffolding can I provide my students that will **ensure success**, without undermining the students' need to stretch and work for it and their sense of personal success?

Scaffolding

Implementation

What instructions will I give my students?

What expectations will I share with them?
